

Look Beautiful!

Get naturally tan before summer - make your friends jealous!

Spray tanning is the easiest and safest way to get a healthy, dark, and sexy Florida tan. With absolutely no sun required, it is by far the safest alternative to acquire a beautiful glow.

Recommended by: The American Academy of Dermatologist, The Skin Cancer Foundation and The American Medical Association.

A fine mist of a solution is applied to the skin using an airbrush for flawless coverage. Our tan's turn out perfect - every time - with no streaks, no odor and absolutely NO ORANGE TINT!

Prepare yourself to look stunningly beautiful!
